

AMENDMENTS TO THE CLAIMS

This listing of claims replaces all prior versions of claims in the application.

Listing of Claims

Claim 1 (currently amended): A folding coffee maker comprising:

a coffee maker body ~~equipped with an apparatus~~ for brewing coffee;

plural sets of folding arms, each set having plural arms linked revolvably, wherein at least two sets of folding arms are disposed on each side of the coffee maker body with their upper ends revolvably fixed to the coffee maker body;

a holder fixed revolvably to lower ends of the folding arms and capable of holding a coffee server when the folding arms are in an extended state, wherein the holder takes a lower position when the folder arms are in the extended state, and wherein the holder takes an upper position when the folder arms are folded; and

a lock mechanism for unlockably locking the holder to the coffee maker body when the holder is at the ~~the~~ elevated position in proximity to the coffee maker body.

Claim 2 (original): The folding coffee maker according to claim 1, wherein

the lock mechanism is equipped with a lever fixed to the coffee maker body and in contact with at least a bottom surface of the holder taking the elevated position, and the lock can be unlocked by releasing the lever from the holder.

Amendment
Application No. 10/809,854
Attorney Docket No. 042284

Claim 3 (original): The folding coffee maker according to claim 1, wherein the folding coffee maker is applied to a galley installed in a vehicle such as an aircraft, a railway vehicle, a ship or a camping car.

Claim 4 (original): The folding coffee maker according to claim 3, wherein the folding coffee maker receives supply of hot water for brewing coffee from a hot-water supply unit equipped to the galley.

Claim 5 (currently amended): The folding coffee maker according to claim 3, wherein the coffee maker body is disposed such that the coffee maker body is drawn out from ~~slidably between a drawn position at a front side of the galley and a stowage position inside the galley at a back side thereof.~~

Claim 6 (new): A folding coffee maker comprising:
a coffee maker body having a shower head for brewing coffee;
a holder for holding a coffee server;
folding arms for disposing the holder below the coffee maker body; and
a lock mechanism for fixing the holder to the coffee maker body,
wherein when the folding arms are extended, the holder takes a lower position to hold the coffee server right under the shower head, and when the folding arms are folded, the holder takes
